

Craftworks College at BrogdaleCIC Student Phased Return

We recognise the uncertainty and worry created by the Covid 19 crisis for parents and carers about sending their child/children back to their educational establishments. We also appreciate the impact on mental health on everyone and the importance of our inclusive and supportive learning environment missed by our students and positively influences their mental wellbeing.

To offer reassurance and in line with Public Health England (PHE) guidelines we have prepared what we believe to be a compliant safe learning environment to assist with the phased return of students at the 'right' time for them. We anticipate a handful of students will return before 1st June with more students coming back from 1st June onwards in step with the governments published lock down exit plan.

Our remote learning programme remains in place throughout to ensure no student is disadvantaged in their education. For those students who will return to college we have implemented the following to maintain a safety standard and minimise infection risk:

- Appropriate PPE at all sites and an induction for all students personalised to their learning needs.
- A cleaning timetable that outlines measures each day and at regular intervals during the day for staff and students adherence.
- A written risk assessment for each returner. All sites have updated risk assessments and measures in place for visitors whether taxis dropping off, parents, KCC or other official visitors.
- A practised and personalised induction process and procedure for all staff and students to educate on measures in place and responsibilities to keep themselves and others safe.
- A continual review of safety processes and procedures as more information is issued by the government and the Health and Safety Executive (HSE).

If you have any questions or need any advice, please don't hesitate to contact any of the college team.

kind regards
